

Supplier name: Supreme Company and Sons Ltd

Publication date: July 2025

Commitment to achieving Net Zero

Supreme Company and Sons Ltd is committed to achieving Net Zero emissions by 2040.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2025	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	0
Scope 2	0
Scope 3 (Included Sources)	Employee travel Bus: 0.36 Car: 0.12 Train: 0.01 Underground: 0.02 Total 0.363 tCO₂e
Total Emissions	0.363 tCO₂e

Our baseline emissions are the same as our current year emissions. At the end of the 2025 financial year, we will update this plan with details of our total emissions over the past 12 months, repeating this each year to demonstrate our journey towards Net Zero.

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets:

- Increase number of care workers who walk or take public transport to care visits instead of driving or taking a taxi
 2025 baseline: 0.12 tCO₂e generated through staff car miles
 2030 target: 0.096 tCO₂e generated through staff car miles (20% reduction)

We project that carbon emissions will decrease over the next five years to 0.338 tCO₂e by 2030. This is a reduction of 7%.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
